

ALUMNO: Ortega Fuentes Daniel

Servicio: Mascaracaracteres:

The screenshot shows the Postman application interface. A POST request is being made to `http://localhost:3000/mascaracaracteres`. The request body contains the following JSON:

```
1 {
2   "cad1": "holo",
3   "cad2": "programacion"
4 }
```

The response status is `200 OK`, with a response time of 67 ms and a response size of 273 B. The response body is:

```
1 {
2   "ok": true,
3   "resultado": "programacion"
4 }
```

On the right side of the interface, there is a sidebar with various tools and options, including "Build with Agent Mode" and "CTRL DERECHA".

Servicio: menoscaracteres:

The screenshot shows the Postman application interface. A POST request is being made to `http://localhost:3000/menoscaracteres`. The request body contains the following JSON:

```
1 {
2   "cad1": "holo",
3   "cad2": "adiosssss"
4 }
```

The response status is `200 OK`, with a response time of 39 ms and a response size of 265 B. The response body is:

```
1 {
2   "ok": true,
3   "resultado": "holo"
4 }
```

On the right side of the interface, there is a sidebar with various tools and options, including "Build with Agent Mode" and "CTRL DERECHA".

ALUMNO: Ortega Fuentes Daniel

Servicio: verifysha256

The screenshot shows the Postman application interface. The top bar displays the date "16 de feb 21:31" and the URL "http://localhost:3000/verifysha256 - Daniel Ortega's Workspace". The left sidebar shows "Daniel Ortega's Workspace" with sections for Collections, Environments, History, Flows, and Files (BETA). The main workspace has a search bar "Search Postman" and a toolbar with "invite", "Settings", "Upgrade", and "New Chat". A message at the top says "We're updating our plans and pricing on March 1. See [our blog](#) for more details." Below the message, a collection named "My Collection" is listed. A POST request is being prepared to "http://localhost:3000/verifysha256". The request body is set to "JSON" and contains the following JSON payload:

```
1 {
2   "normal": "holo",
3   "encriptada": "PEGA_AQUI_EL_HASH_ANTERIOR"
4 }
```

The response status is "200 OK" with a response time of "6 ms" and a size of "264 B". The response body is:

```
1 {
2   "ok": true,
3   "resultado": false
4 }
```

On the right side, there are sections for "Build with Agent Mode (BETA)", "Generate documentation for collection", "Create a new API request flow", "Analyze API responses for errors", and a "POST http://localhost:3..." input field. The bottom navigation bar includes "Run", "Capture requests", "Cookies", "Vault", "Trash", and "CTRL DERECHA".
